

FIFA WORLD CUP 2026 Opening Ceremony

The FIFA World Cup 2026 opening match features Mexico vs South Africa in Group A. This fixture is especially interesting because the same teams also played in the opening match of the 2010 FIFA World Cup, which ended in a 1-1 draw. Sixteen years later, they meet again to launch another historic World Cup tournament.

Mexico enters the tournament with the advantage of playing at home. The Mexican national team will be looking to start strongly and build momentum in front of thousands of supporters at the iconic stadium in Mexico City. South Africa, meanwhile, returns to the World Cup stage after missing recent editions and will be eager to make a statement against the host nation.
